Press Release December 2, 2014

Jackson Community Foundation Grant for Cascades Renovation

The County of Jackson and The Jackson County Parks and Recreation Department have received a grant from the Jackson Community Foundation from the Unrestricted Community Needs Endowment and the Arts & Cultural Endowment in the amount of \$25,000 for the "Cascades Renovations" Phase 1 project. This grant will give us the additional resources to complete Phase 1 of the renovation and continued preservation of The Cascades.

In addition to the \$25,000 grant, the Jackson Community Foundation awarded a challenge grant during the month of November. The Foundation pledged to match every dollar contributed during the month of November. We are pleased to report that the community came together to match all \$10,000 pledged by the Jackson Community Foundation.

The Jackson County Parks and Recreation Department which was founded in 1968 continues to provide parks, recreation and open space opportunities for Jackson County residents and visitors from all over the world for their enjoyment.

We look forward to the continued support from the community in our endeavor to renovate and preserve our community icon, The Cascades. For more information regarding this announcement, please contact Scott Robbins, Parks and Fair Director, by phone at (517) 768-2917 or by email at srobbins@co.jackson.mi.us.
